

National Action Plan on Demand Response

**Mid-Atlantic Distributed Resources Initiative
June 27, 2008**

David Kathan

Manager, Policy Development and Rulemaking Group
Division of Policy Analysis and Rulemaking
Office of Energy Market Regulation
Federal Energy Regulatory Commission

Demand Response Statutory Requirements

Section 529 of Energy Independence & Security Act of 2007 requires FERC to:

- Conduct a **National Assessment of Demand Response (DR)**
 - Due by June 17, 2009

- Develop a **National Action Plan on Demand Response**
 - Solicit input and participation from broad range of stakeholders
 - Including industry, state utility commissioners, and non-governmental groups
 - Identify requirements for technical assistance to states
 - Identify requirements for a national communications program
 - Identify analytical tools and other support material

- Publish the **DR National Action Plan**
 - Include favorable and dissenting comments
 - Due by June 17, 2010

- With DOE, submit National Action Plan **Implementation Proposal** to Congress
 - **Due by December 17, 2010**

DR National Action Plan

Phase I Work Scope

- Outreach discussions w/ major stakeholders
- Identify existing resources, programs, tools, and measures
- Develop initial Straw-man Action Plan
- Solicit input on initial Straw-man from stakeholders
- Revise initial Straw-man based upon:
 - Stakeholder input
 - Information provided by concurrent DR National Assessment
- Release Straw-man National Action Plan for comment

DR National Action Plan

Phase II Work Scope

- Conduct DR National Action Plan Technical Conference
- Develop “optimal solutions” where no consensus found
- Prepare and publicly circulate Draft DR National Action Plan
 - Gather comments
- Publish Final DR National Action Plan
 - Incorporate favorable and dissenting comments
 - By June 2010
- Submit to Congress, with DOE, proposal to implement Action Plan
 - By December 2010

DR National Action Plan

Key Issues for Outreach and Input

- Identify requirements for technical assistance to states
 - What information and tools do states need?
 - How should technical assistance be targeted?
- Identify requirements for a national communications program
 - What is best way to educate customers?
 - How should a national communications program be designed?
- Identify analytical tools and other support material
 - What tools are needed?
 - What tools are currently available?
 - What tools need to be developed?
