

MADRI Smart Grid Initiative

Discussion at MADRI Working Group

April 1, 2009

Smart Grid a MADRI Priority

- Commissioners want to focus on Smart Grid in 2009
 - Envision subgroup meetings
 - Leading to generic products to help states and others with decision-making and implementation
 - Along the way, learn and create a library of resources
 - Use support from LBNL

Issues to address along the way

- Smart Grid investment objectives
 - What should smart grid do?
- Connection to rate design
- Integration of load, distribution, transmission
- Connection to renewable energy objectives
- Information security
- Managing transition
